Objective:

Experienced Computer Programming graduate with hands-on experience in Java, JavaScript, .NET, and SQL. Eager to apply my expertise in designing, developing, and testing applications based on customer requirements. My goal is to work cooperatively in the field of back-end web development. I have completed 18 months of intensive training in software development, and I am proficient in a variety of programming languages. I have the capacity to design, create, and implement complex solutions.

Skills and Knowledge:

- An understanding of the entire Software Development Life Cycle (SDLC) from design to implementation to integration.
- Familiarity with post-implementation reviews to evaluate application development content and processes,
- Ensuring continual learning and process optimization.
- Experience with Databases, including Schema Design, Querying, and Optimization.
- Proficient in application testing to identify and rectify software errors.
- Knowledge of version control systems: Git
- Proactive approach with a passion for delivering high-quality work.
- Exceptional Interpersonal Skills with a proven track record of successful Teamwork and effective Communication skills (Verbal and Written).
- Skills in analytical thinking, logic building, and problem solving.

Technical Skills:

- **Programming Languages:** Java, Python, C#, F#, JavaScript, SQL, HTML, CSS
- **Frameworks:** Bootstrap, ASP.NET
- **Databases:** MySQL server

Education:

- **Computer Programming (Diploma)** **Sept 2023- Apr 2025**
Georgian College, Barrie, ON
- **Senior Secondary Education** **Sept 2020- Apr 2022**
Sri Chaitanya Junior College

Professional Experience:

Web Developer | Local Era (Barrie, ON)

Nov 2023 – Present

- Develop and implement user interfaces for websites and web applications using HTML, CSS, and JavaScript.
- Ensure the responsiveness and cross-browser compatibility of the application.
- Design and implement server-side logic using server-side technologies like Node.js, react.js, Ruby on Rails, etc.
- Create and maintain databases, ensuring optimal performance and data integrity.
